

ASMC SAFETY CHARTER

The ASMC Board of directors has established a People & Safety Committee. A purpose of the Committee is to facilitate continuous improvement in Work Health & Safety across the sugar milling industry. This is advanced by providing guidance and keeping member companies up-to-date on issues, technology and systems. The Committee champions causes which impact the industry and acts as a liaison with government.

The ASMC harnesses the expertise and leadership of members to develop, inform and share best practice health and safety management across the sector.

On behalf of the ASMC Directors, the People & Safety Committee aim to promote thought leadership on a world-leading health and safety environment to ensure that continuous improvement in health and safety is aligned with new and emerging health and safety considerations.
